A.M.

LIQUID ACID DAIRY DETERGENT

DESCRIPTION

A.M. Liquid is a concentrated blend of detergents with sanitisers formulated for use every morning in conjunction with P.M. which is used every evening. It is a low foaming product and can be used through third-line or re-circulated systems.

Supervised farm trials carried out in hard water areas have show the A.M./P.M. System is the answer for maintaining the TPC counts to less than 25,000.

METHOD OF USE

1. Before Milking - Sanitise: Prepare a solution of Idyne (or alternative) sanitiser and rinse the whole plant including the cooler, bulk milk vat etc. Allow 5 litres per set of cups. Drain machine thoroughly and milk directly after.
2. After Morning Milking: Flush machine with at least 5 litres of cold water per set of cups. Prepare a solution using 20mls. A.M. Liquid Acid Dairy Detergent to 10 litres of hot water (85-95°C). Flush through at least 5 litres per set of cups.

The Product Information Sheet supersedes all previous issues for this product. Information contained herein is offered in good faith as being true and accurate to the best of our knowledge, but as the conditions of use are beyond our control, no guarantees are either stated or implied.

Where health or safety data given discloses a risk to the user or the environment, it is the responsibility of the purchaser to pass on the information to employees who may be using the product, ensuring that adequate safety procedures are used, including good industrial hygiene.
