

SYKES VET INTERNATIONAL PTY LTD

PRODUCT INFORMATION

SINCE 1897

SYKES ANIMOL-C

THE PRODUCT

Sykes Animol-C is an inexpensive antiseptic ointment specifically formulated for sore and cracked teats and general wound treatment in cattle. As a Chlorhexadine based ointment it is both antiseptic and odourless. When rubbed into teats after milking, Animol-C will keep them smooth and supple and help prevent chapping and infection.

COMPOSITION

- Chlorhexidine Gluconate
- Cetrimide
- Blend of oils and waxes
