PRODUCT INFORMATION

SINCE 1897

DERI-SAL

THE PRODUCT

This famous light coloured ointment is suitable for all cuts and abrasions and is especially designed for cracked and sore teats and general skin infections. Deri-Sal gives a barrier against mud and wet conditions between milking with the ability to stay on once applied for extended periods of time.

COMPOSITION

The active ingredients in Deri-Sal are:

- Zinc Oxide 30g/kg
- Boric Acid 15g/kg
- In a base of blended waxes and oils.
