DIP 'N' SPRAY Ready-To-Use IODOPHOR TEAT SANITISER containing FREE IODINE

DESCRIPTION

DIP 'N' SPRAY RTU Iodophor Teat Sanitiser is a "dual-use" product to assist in the control of mastitis in dairy cows and as an aid in preventing teat cracking and chapping containing FREE IODINE.

APPLICATION

DIP 'N' SPRAY RTU can be equally effectively used as a standard type teat dip or as an udder spray. In either case, every cow should be treated after each milking. DIP 'N' SPRAY RTU contains FREE IODINE which ensures maximum efficiency and rapid kill of pathogenic bacteria. DIP 'N' SPRAY RTU also contains POLIDONE which creates a moisturising polymer film over the teat canal to block out mastitis causing bacteria and extends iodine activity by up to 20%.

FEATURES

- Ready-to-use
- Contains a minimum of 0.5% FREE IODINE.
- Contains polidone.
- Fully balanced emollient system built in with optimum buffered ph properties.

BENEFITS

- No mixing or dilution required.
- Manufactured with filtered, deionised water.
- The optimum level for maximum protection as endorsed by Countdown Downunder.
- Maximum potency 5000ppm iodine which rapidly kills mastitis producing bacteria.
- Ensures maximum efficiency and rapid kill of pathogenic bacteria.
- Retains efficacy for at least 24 months.
- Polidone extends iodine activity by up to 20%.
- Polidone is non irritant to the tissues of the teat, promoting quicker healing of cuts and abrasions.
- Promotes skin conditioning.
- Saves the use of an ointment or cream.
