DUSK

LOW FOAMING POWDERED ALKALI DAIRY DETERGENT

DESCRIPTION

DUSK Powder is a low foaming alkali dairy detergent formulated for use in third line or recirculated systems.

DUSK Powder contains a unique blend of alkaline ingredients and low foaming wetting agents which ensure soil is suspended and surfaces are left clean.

APPLICATION

DUSK is used each evening after milking and is a companion product to DAWN which is used each morning after milking.

Supervised farm trials carried out in hard water areas have shown that the DUSK / DAWN system is the answer to maintaining Total Plate Counts (TPC) to less than 25,000.

BENEFITS

- Low Foaming
- Free rinsing.
- DUSK has been evaluated by the National Registration Authority and found to comply with Australian Standard AS1803.
- Excellent penetration action to prevent redeposition occurring.
- Highly concentrated for economy in use.

DIRECTIONS FOR USE

BEFORE MILKING SANITISER

Prepare a solution if IDYNE (or alternative) sanitiser and rinse whole plant including cooler, bulk milk vat and lines.

Allow 5 litres of solution per set of cups.

Drain machine thoroughly and milk directly.
