FREEDOM R.T.U. (READY TO USE)

DESCRIPTION

FREEDOM RTU is a complex blend of quaternary ammonium compounds. Its superior germicide activity when compared to conventional quat based sanitisers combined with its "no rinse" properties provides the complete sanitising program.

APPLICATION

FREEDOM RTU is specifically used as the final rinse sanitiser at the end of the standard wash program.

BENEFITS

- Broad spectrum biocidal activity against both gram positive and gram negative organisms.
- Better disinfectant performance at lower use concentrations.
- Greater hard water tolerance sanitising activity at lower use levels.
- Superior organic soil tolerance.

DIRECTIONS FOR USE

FREEDOM RTU should be used as received.

At this prepared concentration it has F.D.A. clearance to sanitise without the requirement of a potable water rinse.

FREEDOM RTU can be applied by spraying, fogging or mopping onto the required surface.

HEALTH & SAFETY INFORMATION

See separate Material Safety Data Sheet available on request.

PACKAGING

750 ML,
5 LITRE,
20 LITRE Polyethylene drums

The Product Information Sheet supersedes all previous issues for this product. Information contained herein is offered in good faith as being true and accurate to the best of our knowledge, but as the conditions of use are beyond our control, no guarantees are either stated or implied.

Where health or safety data given discloses a risk to the user or the environment, it is the responsibility of the purchaser to pass on the information to employees who may be using the product, ensuring that adequate safety procedures are used, including good industrial hygiene.
