GREEN OINTMENT

THE PRODUCT

Green Ointment is a famous ointment especially in the dairy industry because it is manufactured with the needs of dairy cattle in mind. Green Ointment counteracts skin chapping due to wind and sunburn as well as a treatment for abrasions, wounds and scratches. It forms a barrier against infection and helps prevent the spread of mastitis. Another highlight is its antiseptic action not to mention how economical it is to use.

COMPOSITION

The active ingredients for Green Ointment are:

- Boric Acid 20g/kg
- Benzoic Acid 25g/kg
- Salicylic Acid 20g/kg
- Mixed in a blend of lanolin, waxes and oils.
