HIGENE

GERMICIDE, DETERGENT, DEODORANT
PLUS INSECT REPELLENT

DESCRIPTION HIGENE is a powerful liquid sanitiser which performs as a Germicide, Disinfectant Sanitiser and Deodoriser while it cleans.

APPLICATION HIGENE was designed and developed in our laboratories for use in hospitals, surgeries, air terminals, institutions, restaurants, shower and change rooms, toilets etc., and for the general disinfecting and cleaning of floors, walls, all hard surfaces, toilet, drains, garbage bins etc.

BENEFITS

- Contains a powerful biocide which results in the product being effective against a wide range of organisms such as staphylococcus aureus, salmonella typhosa and escherichia coli.
- The only product available which leaves an insect repellent on the sanitised surfaces.
- Cleans surfaces from dirt and grime and kills all germs and microbes during the one cleaning procedure.
- Highly residual perfume which leaves the surfaces smelling fresh for an extended period of time.

DIRECTIONS FOR USE

HIGENE is normally used at a dilution rate of 1:60 in hot water. This may be increased where greater cleaning, disinfection or increased perfume levels are required.

The Product Information Sheet supersedes all previous issues for this product. Information contained herein is offered in good faith as being true and accurate to the best of our knowledge, but as the conditions of use are beyond our control, no guarantees are either stated or implied.

Where health or safety data given discloses a risk to the user or the environment, it is the responsibility of the purchaser to pass on the information to employees who may be using the product, ensuring that adequate safety procedures are used, including good industrial hygiene.
