NIGHT TIME LIQUID ALKALI DAIRY DETERGENT

DESCRIPTION:

NIGHT TIME LIQUID ALKALI DAIRY DETERGENT is a liquid alkali dairy detergent specifically formulated for use every night for removal of fats and protein deposits in milking plants.

APPLICATION:

NIGHT TIME has been formulated for cleaning of milking machine equipment especially third line recirculating systems. It has been designed for use every evening and to be used in conjunction with MORNING LIQUID ACID DAIRY DETERGENT. These two products combine to form the MORNING / NIGHT cleaning system.

BENEFITS:

- * Softens water and prevents hard water deposits.
- * Low foaming formulation.
- * Free rinsing.
- * Excellent penetration action to prevent redeposition occurring.
- * Highly concentrated for economy in use.

The Product Information Sheet supersedes all previous issues for this product. Information contained herein is offered in good faith as being true and accurate to the best of our knowledge, but as the conditions of use are beyond our control, no guarantees are either stated or implied.

Where health or safety data given discloses a risk to the user or the environment, it is the responsibility of the purchaser to pass on the information to employees who may be using the product, ensuring that adequate safety procedures are used, including good industrial hygiene.
