THREE-IN-ONE ONE STEP DAIRY CLEANER-SANITISER

DESCRIPTION

THREE-IN-ONE is a unique product in that it can be used as a one step cleaner for milking equipment and vats.

THREE-IN-ONE is a product which can be used at much lower temperatures than the traditional dairy cleaners on the market today.

Because of its low foaming characteristics it is especially suited to third line cleaning systems and in particular rotary sheds.

THREE-IN-ONE eliminates the need to use a pre-milking sanitiser and a milkstone removal step in the cleaning process.

THREE-IN-ONE has been extensively trialed in the Warrnambool area in Victoria with outstanding results.

DIRECTIONS FOR USE

Milking machines

Rinse plant with cold water using 5 litres per set of cups.

Post milking

1. Rinse plant with cold water using 5 litres per set of cups.
2. Prepare a solution of THREE-IN-ONE at the rate of 50mls per ten litres of warm water (40-45°C).
3. Flush plant with the THREE-IN-ONE solution using 5 litres per set of cups.
4. Allow detergent to drain from milking system.

Product Information Sheet

THREE-IN-ONE

Page 2 of 2

Milk vats

Prepare a solution of THREE-IN-ONE at the rate of 50mls per ten litres of warm water (40-45°C) and scrub using a dairy brush or mitt. Allow to drain.

Special clean

A special "Bomb Clean" using Tasman Chemicals CIRCOMATE should be performed monthly in conjunction with the THREE-IN-ONE programme. Use CIRCOMATE at the rate of 200 grams per ten litres of hot water (75-85°C) and circulate for 5-8 minutes. This is followed by a hot water rinse and then a normal clean with THREE-IN-ONE detergent.

SAFETY DIRECTIONS

Avoid contact with skin and eyes to prevent possible irritation. Wash concentrated THREE-IN-ONE solution from skin and eyes immediately.

For more detailed information see separate Material Safety Data Sheet.

PACKAGING

20LT polyethylene drums
200LT drums
